

AUSTRALIA'S LARGEST DEDICATED TRUCK, TRAILER & EQUIPMENT SHOW

O'Phee Trailers

Placed right in the thick of the action between the Exhibition Pavilion and Main Arena Pavilion, there was no shortage of visitors to O'Phee Trailers' ITTES stand.

At its 2014 show, the Brisbane-based trailer

specialist showcased its successful O'Phee BoXLoader trailer, which debuted in 2011 "The O'Phee BoXLoader is the ideal solution to handle containerised freight in today's just-in-time supply chain, and is ideal to handle

Melbourne's increasing container freight task," said Mick O'Phee. "Coming back this year, the goal was to touch base with many of our local clients here and also strengthen our market presence. As a result, we were able to get a few leads too."

The O'Phee BoXLoader, which can operate as a single, B-double or road train rated trailer, is the result of a collaboration between O'Phee and French company BXL, and incorporates O'Phee's tried and true light tare, high quality trailer frame technology. "The purpose of the O'Phee BoXLoader is not just to reduce transport costs, but to make the whole supply chain, including all involved transactions, more efficient and more responsive to our ever-changing market place," Mick added.
