

## QUEENSLAND TRAILER BRANDS ALLIANCE

THE Perth Truck and Trailer Show was the first public outing for two trailer brands from Queensland after forming an alliance to formalise their long-standing connection. Heavy haulage trailer specialist Drake had announced the acquisition of fellow Queensland-based manufacturer O'Phee Trailers just before the event, in a move to strengthen and diversify its product range. "The synergies between both companies have always been undeniably strong and complimentary, and the bringing together of these great manufacturers will provide customers of both O'Phee and Drake access to a diverse range of transport solutions," said Khali Lake, General Manager of Drake Trailers. "Mick and Sharon O'Phee will continue to operate the O'Phee business at their current location with their highly skilled and experienced staff and all contact details will remain the same."
